IMPORTANT INFORMATION REGARDING PETE & C 2010 PRECONFERENCE WORKSHOPS

The philosophy of PETE & C is that hands-on workshops provide the best learning experience for preconference participants. For this reason, most of the hands-on preconference workshops will be held in computer labs in school districts located within a short drive of the Hershey Conference Center. Seminars that do not include hands-on activities will be held at the Conference Center.

Bus transportation will be provided from the Conference Center to each offsite location and back to the Conference Center at the end of the workshop. Busses will leave the Conference Center at 8:15 a.m. for full-day sessions and 12:15 p.m. for afternoon sessions. At the end of they day, you will be picked up at your location at or close to 4:00 p.m. and taken back to the Conference Center. Should you prefer to drive yourself, a copy of driving directions to all offsite locations is included with these materials.

A continental breakfast will be provided in the morning at each offsite location, as well as at the Conference Center for all participants in preconference activities. Lunch will be provided at no additional cost for all full-day sessions. If you have registered for a full-day session (or a morning and an afternoon session) and have special dietary needs (vegetarian, etc.), please notify Janet Dubble at petec.precon@gmail.com. In this confirmation packet, you will also find information that includes the name of the school district and building in which your workshop will be held, as well as the room number.

In addition, the same information will be posted on the PETE & C website at: http://www.peteandc.org/preconf.asp. The workshop locations and driving directions will be downloadable in PDF format. **Please check the information on the website a day or two prior to the conference in case any changes to this information have been announced.**
